

The College of Naturopaths of Ontario

2022-23 Registration Renewal Schedule

Important Dates

The following is a list of important dates and deadlines around the 2022 renewal period. To avoid incurring a late fee and potentially affecting your registration status, your online information return form and payment (either full payment of your registration fee OR enrollment in the College's Payment Plan Program) must be received before the March 31, 2022 5:00 p.m. EDT deadline.

Note: Some information may require review prior to your being provided with access to the payment portal and the ability to complete the renewal process. Reviews may take up to 5 business days depending on the volume experienced by the College at that time, and Registrant response time to College requests for additional information or documentation. Please allow yourself sufficient time to complete the process prior to March 31.
