Registration staff and Registrants will act in accordance with this policy, the Examinations Policy and Examination Rules of Conduct, and any applicable procedural manuals.

Eligibility Requirements for the Practise of IVIT

Any Registrant who wishes to perform IVIT procedures (compounding for IVIT or administering IVIT) must:

- Hold a General Class certificate of registration without any TCLs which restrict the Registrant from engaging in direct patient care.
- Be in good standing with the College.
- Have successfully completed an IVIT training course, approved by Council, that covers the core competencies for the practise of IVIT, and an examination in IVIT administered or approved by Council.
- Have met the Standard of Practice for Prescribing as outlined in the Prescribing and Therapeutics Program & Examination Policy.
- Hold \$3 million per claim and \$3 million aggregate level in professional liability insurance in addition to the \$2 million coverage required of all Registrants holding a General Class Certificate of Registration, in accordance with section 19 of the College by-laws.
- Meet the requirements as set out in the Quality Assurance Program for Continuing Education related to IVIT.
- Only perform IVIT procedures in an IVIT premises registered with the College which has undergone an inspection and received an outcome of a pass or a pass with conditions.

Skills Atrophied

Registrants holding an Inactive Class certificate of registration or a General Class certificate of registration with a non-clinical TCL with the College for more than two years are deemed to have atrophied in skill and no longer meet the Standard of Practice, and as such must complete the eligibility requirements as set out above, prior to being eligible to practise the controlled act of IVIT.

Core Competencies for the Practise of IVIT

Registrants performing IVIT possess the knowledge, skill, and judgment in the following core competencies to ensure safe and effective practise:

- Clinical rationale, including knowledge of indications and contraindications related to the practise of IVIT, related science to the practise of IVIT, and the ability to assess when IVIT is or is not an appropriate treatment option.
- Patient assessment, including health history and allergies, physical examination and informed consent requirements, appropriate tests and labs, referral indicators, and the ability to interpret results, evaluate patient outcomes and assess patient response to IVIT treatment.
- Record keeping, including knowledge of documentation, charting and labeling requirements, appropriate IVIT related medical abbreviations, patient education documents and incident report filing requirements.

standards for IVIT, emergency response and infection prevention and control.

4. Substances covered in the course must cover all and only the substances outlined in the list of substances to be administered by injection in the General Regulation.
5. Labs covered in the course should a) reflect those laboratory tests relevant to the practise of IVIT, and b) be discussed in the context of those which are and those which are not authorized to the profession under the *Laboratory and Specimen Collection Centre Licensing Act*, the General Regulation and the Standards of the College.
6. All participants who successfully complete the course must be provided with a certificate of completion or similar proof of course completion issued by the course provider.
7. The course must contain six to eight hours of dedicated emergency procedures content, including one hour of emergency procedures role play, which addresses the following:
 - How to assess and respond to: infiltrations and extravasations, phlebitis and thrombophlebitis, catheter related venous thrombosis, allergic and anaphylactic reactions, ecchymosis and hematoma, cardiac arrest, circulatory overload, syncope, speed shock, and IV-line issues (e.g. line obstructions and tubing disconnects).
 - Prevention protocol, treatment options and emergency referral indicators for adverse reactions and emergency scenarios.
 - Discussion and demonstration of PPE and devices (including safety engineered needles), and emergency equipment (including oxygen tanks, oxygen masks, AED and pulse oximeters).
 - Documentation and reporting requirements around adverse reactions.
8. Course must have a practical component which:
 - Requires participants to perform at least one successful infusion with proper insertion and termination.
 - Requires participants to perform at least one successful IVIT push with proper insertion and termination.
 - Requires participants to perform at least seven angiocath insertions, and at least three butterfly insertions.
 - Requires participants to compound a bag for IVIT using a laminar air flow hood, demonstrating proper infection control measures and garbing protocol.
 - Discusses and demonstrates sterile compounding for IVIT, including use and maintenance of a laminar air flow hood and proper aseptic technique;
