Post Registration Certificate – IVIT

Upon issuance of a Certificate of Registration with the College, Registrants registered in another jurisdiction, where the regulatory authority attests to the Registrant having met one of the above criteria, will be deemed to have met the College's Standard of Practice for Prescribing upon completion of the course module relating to Ontario's drugs and substances. No additional examination will be required.

Due to substantial differences in scope, and training between the different jurisdictions, and the higher risk associated with the practise of intravenous infusion therapy (IVIT), the College does not recognize IVIT certifications obtained in other jurisdictions.

Guidance to Registrants

Individuals who become Registrants of the College by virtue of having practised in another regulated Canadian jurisdiction shall be issued appropriate guidance related to minor differences in scope between the jurisdictions, where applicable. This advice shall include:

- Registrants of the College must always practise within the Scope of Practice of the Profession and as such, IVIT chelation, minor surgery, ozone therapy, and hyperbaric oxygen therapy are excluded from the practice of the profession in Ontario.
- Registrants of the College must always practise within the limits of their own knowledge, skill, and judgment.
- Registrants of the College are required to practise in a manner which meets the Standards of Practice of the profession as detailed in the General Regulation and on the College's website.
- A Registrant must have met the Standard of Practice for Prescribing before they may access any of the drugs or substances identified in the General Regulation or perform any of the controlled acts of administering a substance by injection or inhalation and prescribe, dispense, compound, or sell a drug.
- A Registrant must have met the Standard of Practice for Intravenous Infusion Therapy and the Standard of Practice for Prescribing and be practising in premises registered with the College's Inspection Program before the Registrant may administer a substance by IVIT.
- Registrants will be reminded that they may not perform acupuncture in Ontario unless they have been deemed by their regulatory body to have met the post-registration certification for acupuncture, or until they obtain sufficient education and training in acupuncture in accordance with the College's Clinical (Practical) Examinations Policy.
