REP: Regulatory Requirements for Lab Testing

Don't miss out on our REP session on March 23 at 12 p.m. ET on Regulatory Requirements for Lab Testing! We'll cover the applicable framework, scope of practice, and compliance expectations, including documentation, billing, and patient safety considerations. It's a valuable opportunity to strengthen your knowledge of authorized in-office testing and professional responsibilities and pose questions directly with subject-matter experts. Secure your seat today!

Standard of Practice on Requisitioning Laboratory Tests
The College's Standard of Practice on Requisitioning Laboratory Tests sets out the requirements for requisitioning the collection of specimens from patients by an Ontario specimen collection center and the performance of tests on that specimen in an Ontario laboratory. This resource outlines expectations for documentation, billing practices, and patient communication. Review the standard to ensure you stay informed and in compliance.
